

Ant Café

Refillable Bait Stations

By Innovative Pest Control Products

P.O.Box 880216, Boca Raton, Florida 33488 Tel.561.483.4997

Contents : 48 Bait Stations, 48 Anchoring Tapes & 50 Locking Ties

• Description:

- The "Ant Cafe" is a one piece bait station for crawling insects.
- The "Ant Cafe's" polypropylene construction allows it to be used indoors or outside.
- The "Ant Cafe" is adjustable, initially only one end is open, the 1/8" access is ideal for reducing liquid bait evaporation, while still allowing access to small sweet feeding ants.
- The size of the hole in the hinged end can be increased (by inserting the tip of a pen or pencil) to the precut 1/4" diameter
- The sealed end can also be adjusted in the same manner to allow either a 1/8" or 1/4" access
- The larger diameter holes are used when large ants or small roaches are the target pest and a granular or gel type bait is used
- The "Ant Cafe" can be securely sealed by passing a locking plastic tie through the molded eyelets
- The triangular shape permits placement close to walls, on window sills, and even kitchen counters
- The "Ant Cafe" can be secured in place inside or out with our locking tie and/ or tape anchor system

• Hints for more effective use:

- Always store "Ant Cafe's" away from chemicals
- Always keep "Ant Cafe" in sealed zip lock storage container
- Keep "Ant Cafe" away from cigarette, cigar and pipe smoke
- Wash hands thoroughly before handling insect baits or bait stations, if you have been handling repellent pesticides or smoking
- Do not use non bait pesticides on or near "Ant Cafe" bait stations.
- Identify the target insect
- Select the bait formulation and active ingredients most appropriate to the target pest
- All insect pests require food, water and shelter. Place your "Ant Cafe" between two of these requirements and adjacent to observed activity
- Keep baits fresh, even our "Ant Cafe" won't keep baits fresh forever
- When reusing bait stations, flush thoroughly with water and dry before adding new bait

Good Luck and Thank You for using our Products
Sincerely,

Alan S. Bernard
